The following Press Communique, dated 14th August 1941 issued by the Government of India, Commerce Department, on the Legislation of transactions in coffee, including forward sales is republished for general information.

PRESS COMMUNIQUE.

COFFEE CONTROL SCHEME.

It is understood that transactions in coffee, including forward sales, are likely to be entered into by owners of Coffee Estates on the assumption that legislation on the lines of existing Indian Coffee Market Expansion Ordinance will be undertaken but that such legislation would accord a measure of immunity from control to contracts for the sale of coffee for forward delivery. The terms of any such prospective legislation will be formulated in consultation with the coffee industry and it is not possible to forecast them at present.

The Government of India desire to emphasize that persons who now speculate upon the probable terms of any such legislation do so entirely at their own risk. If and when legislation comes, into force, representations for the special treatment of the transactions referred to above are not likely to receive any special consideration.

Unless the vendor of any food containing an admixture, addition or deficiency, knows of his own knowledge, that the purchaser is able to read and understand the label, he shall give the purchaser the information contained in the label by word of mouth at the time of purchase.

Section 20 (e).—

6. The standards of purity prescribed for milk, cream, butter and ghee are as follows:—

Milk.—

Cow's Milk.—(1) Where a sample of cow's milk (not being sold as skimmed or separated milk), contains less than three per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine, by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(2) When a sample of cow's milk or any skimmed or separated cow's milk contains less than 8.5 per cent of milk-solids other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(3) When a sample of cow's milk whether sold as cow's milk or as skimmed or separated cow's milk contains less than 0.5 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

Buffalo Milk.—(4) Where a sample of buffalo milk (not being sold as skimmed or separated milk), contains less than 4.5 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(5) Where a sample of buffalo milk, whether sold as buffalo milk, or as skimmed or separated buffalo milk, contains less than 9 per cent. of milk-solids other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water.

(6) Where a sample of buffalo milk, whether sold as buffalo milk or as skimmed or separated buffalo milk, contains less than 0.53 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water.

N.B.—The minimum limits for nitrogen prescribed above under (3) and (6), are intended to be used in those cases in which a sample of milk, when it is analysed, is so far decomposed that an estimation of the proportion of milk-solids, other than milk-fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

Unspecified Milk.—(7) Where a sample of milk, separated milk or skimmed milk, is sold or offered for sale or hawked about, without any indication as to whether it is derived from the cow or the buffalo and by comparison with the minimum limits given for the cow's milk in the above, it appears to be adulterated, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine for the reason given in the above rule or rules which are applicable.

Maximum Limit for Dirt in Milk.—(8) Where a sample of milk separated or skimmed milk deposits on standing for a period of 24 hours or less, an amount of visible sediment exceeding five parts per 100,000 (both milk and sediment being measured by volume), it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of its containing an excessive amount of dirt.

Cream.—(9) Where a sample of cream contains less than 20 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.

By Order,
V. VEDAVYASACHARYA,
Secretary to Government,
Development Department.

Rules under the Mysore Prevention of Adulteration Act.

1. In these rules, "Act" means the Mysore Prevention of Adulteration Act, IX of 1921.

"Section" means section of the above Act.

Section 3.—

2. The Officer to whom the local executive officer may delegate his powers shall be of the rank of a Health Officer or shall hold the Diploma of Public Health. No legal proceedings under the Act shall be instituted without the permission in writing of the President or the Commissioner, as the case may be.

Section 20 (b).—

3. The area within which the local executive officer of a Municipal Council shall exercise powers shall be the Municipal limits of the place.

Section 20 (c).—

4. *Cleanliness of Vessels.*—All vessels, receptacles or utensils used for manufacturing or preparing food or containing any food intended for sale shall be cleansed with clean boiling water before and after use and shall be kept in a constant state of cleanliness. In case of food likely to be acted upon by the metal of the vessels, receptacles or utensils in which the food is manufactured, prepared or contained for purposes of sale, precautions shall be taken to prevent such metallic contamination.

Section 20 (d).—

5. *How notice of Admixture, Addition or Deficiency shall be given.*—If the vendor of any article intended for food, knows that it is admixed with any foreign substance whatsoever or that any component part has been abstracted therefrom, he shall give due notice of such admixture or abstraction by means of distinct and clear labels in Kannada or in any other language likely to be read and understood by the people, affixed conspicuously on each package or receptacle containing the article. Unless the vendor of any food containing an admixture, addition or deficiency, knows of his own knowledge, that the purchaser is able to read and understand the label, he shall give the purchaser the information contained in the label by word of mouth at the time of purchase.

Section 20 (e).—

6. The standards of purity prescribed for milk, cream butter and ghee are as follows:—

Milk.—

Cow's Milk.—(1) Where a sample of cow's milk (not being sold as skimmed or separated milk), contains less than three per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine, by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(2) When a sample of cow's milk or any skimmed or separated cow's milk contains less than 8.5 per cent of milk solids other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(3) When a sample of cow's milk, whether sold as cow's milk or as skimmed or separated cow's milk, contains less than 0.5 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

Buffalo Milk.—(4) Where a sample of buffalo milk (not being sold as skimmed or separated milk), contains less than 4.5 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(5) Where a sample of buffalo milk, whether sold as buffalo milk, or as skimmed or separated buffalo milk, contains less than 9 per cent of milk-solids other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water.

(6) Where a sample of buffalo milk, whether sold as buffalo milk or as skimmed or separated buffalo milk, contains less than 0.53 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water.

N.B.—The minimum limits for nitrogen prescribed above under (3) and (6) are intended to be used in those cases in which a sample of milk, when it is analysed, is so far decomposed that an estimation of the proportion of milk-solids, other than milk-fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

Unspecified Milk.—(7) Where a sample of milk, separated milk or skimmed milk, is sold or offered for sale or hawked about, without any indication as to whether it is derived from the cow or the buffalo and by comparison with the minimum limits given for the cow's milk in the above, it appears to be adulterated, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine for the reason given in the above rule or rules which are applicable.

Maximum Limit for Dirt in Milk.—(8) Where a sample of milk separated or skimmed milk deposits on standing for a period of 24 hours or less, an amount of visible sediment exceeding five parts per 100,000 (both milk and sediment being measured by volume), it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of its containing an excessive amount of dirt.

Cream.—(9) Where a sample of cream contains less than 20 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.

Butter.—(10) Where the proportion of water in a sample of butter exceeds 20 per cent, it shall be presumed for the purposes of this Act, until the contrary be proved, that the butter is not genuine by reason of the excessive amount of water therein.

New Delhi, the 21st October 1941.

PRESS COMMUNIQUE.

HAJJ PILGRIMAGE—SHIPPING ARRANGEMENTS.

Arrangements have been made for sailings during November and December of pilgrimages for the approaching Hajj Pilgrimage. In spite of the demands on available shipping by war needs, there will be several sailings from Bombay and Karachi and one from Calcutta. Owing to war conditions actual sailing dates cannot be given but intending pilgrims should reach pilgrim ports by the dates mentioned below and should come prepared to maintain themselves for a delay which may extend to five days. While ships are being provided to make available accommodation for pilgrims to a number considerably in excess of those who travelled last year, pilgrims are advised in their own interest to travel by the earliest convenient sailing as in war conditions it will probably not be possible to provide an extra ship in the event of a last minute rush at the ports.

For the first sailing from Bombay and Karachi, pilgrims should reach those ports at the latest by 10th November and 11th November, respectively. For the Calcutta sailing pilgrims should reach Calcutta by the 17th November 1941. Pilgrims should reach Bombay on the 17th November and Karachi on the 18th November, for the second sailing from these ports. An announcement will be made later about subsequent sailings from Bombay and Karachi.

2. *Fares.*—The steamer fares fixed for this pilgrim season are as follows:—

*Fares including food charges
and Kamaran quarantine fee.*

DECK PASSENGERS.

	Rs.	a.	p.
Bombay to Jedda (return) ...	203	0	0
Karachi to Jedda (return) ...	196	0	0
Calcutta to Jedda and back to Bombay ...	235	8	0

CABIN PASSENGERS.

	Rs.	a.	p.
Bombay to Jedda (return) ...	744	0	0
Karachi to Jedda (return) ...	716	0	0
Calcutta to Jedda and back to Bombay ...	795	0	0

For children under ten years of age these fares will be less by the following amounts on account of food charges:—

DECK PASSENGERS.

	Rs.	a.	p.
Bombay to Jedda ...	14	0	0
Karachi to Jedda ...	9	8	0
Calcutta to Jedda and back to Bombay ...	16	12	0

CABIN PASSENGERS.

	Rs.	a.	p.
Bombay to Jedda ...	53	8	0
Karachi to Jedda ...	38	0	0
Calcutta to Jedda and back to Bombay ...	63	12	0

The increase in this year's fares as compared with last year is explained by the addition of a flat rate of one rupee to meet the increased incidence of Jedda sanitation dues at the ruling rate of exchange, the customary Kamaran quarantine fee of Rs. 3 which was omitted from the fare last year, as no call was made and an element of increase necessitated by the general rise in food prices.

The boat hire of Rs. 3 for conveying pilgrims and their effects from ship to shore at Jedda and from shore to ship on the return journey will be collected in India by the Shipping Company when issuing tickets. Pilgrims, for whom boats will be provided, will not be required to make any further payment on this account at Jedda.

3. *Estimate of cost of the Hajj.*—The estimate of cost detailed below is based on the exchange rate of one Riyal for one rupee. The elements included are the cost of return passage and all essential expenditure in the Hejaz. The reduction of 25 per cent in dues and transport charges allowed by the Saudi Arabian Government has been taken into account.

	Bombay	Karachi	Calcutta
	Rs.	Rs.	Rs.
(i) Deck passage by steamer and travel in the Hejaz by camel.	631	624	664
(ii) First class passage by steamer and travel in the Hejaz by bus.	1,500	1,472	1,551
(iii) First class passage by steamer and travel in the Hejaz by car.	1,918	1,890	1,970

If higher standard of living is adopted substantial additions to these totals will be necessary.

4. *Grant of Concession to Pilgrims to export gold from India.*—The various Saudi dues, taxes and transport charges will be payable by pilgrims in Riyals. Rupees will be accepted in payment of the dues, etc., at the rate of one rupee for one Riyal. Owing to the difference in the exchange rates of gold pound in the Hejaz and India, pilgrims who take gold with them will be able to reduce their expenditure by about Rs. 5 per every gold sovereign taken. Although the Saudi dues and taxes are not fixed this year in gold currency pilgrims will nevertheless be permitted to take out of India gold up to the following limits.

Cabin class pilgrim	30 gold pounds.
Deck do	10 do

Pilgrims who desire to take out with them gold up to the limits prescribed above will have to make their own arrangements to purchase gold sovereigns in India.
